2013

The purpose of this letter is to invite you to participate with us, a local septic company for 50 years, in our new networking program. This program will provide your organization with a donation of **\$20.00** for every pumping job and **\$100.00** for every other job we do over \$1000.00 that we receive from your referral.

Besides giving you a donation, the customer we work for could also save themselves \$32.00 - \$68.00, depending on the size of their septic tank.

We are doing this because we found ourselves paying over \$80,000.00 per year to the five Yellow Pages in the Hudson Valley, that are out of town companies. We think our advertising money would be better spent on our local customers and their organizations, keeping the money local.

If your organization is interested, please contact us at (845) 674-3022 or the number listed above for more information.

To learn more about us, please visit our website.

Thank you,
John H. Sloboda
President
